

Policy

Federal Budget Update

On June 28th, the full Senate Appropriations Committee passed their FY19 education spending bill. It included funding for the 21st Century Community Learning Center (21st CCLC) afterschool and summer learning programs at \$1.212 billion. Funding allocations for other programs vital for children and families included:

- Child Care and Development Block Grant (CCDBG) at \$5.2 billion
- Title I of ESSA at \$15.9 billion
- Title IV Part A Student Support Academic Enrichment Grants a \$125 million increase
- Career and Technical Education at \$1.2 billion
- Evidence-based STEM education programs, including computer science education, within the Education Innovation and Research program at \$65 million

The House full Appropriations Committee is scheduled to mark up its bill on July 11th. The federal fiscal year ends on September 30, 2018. To share with your legislators the importance of funding afterschool, click [here](#). For more information on the appropriation proceedings, click [here](#).

Strengthening Career and Technical Education for the 21st Century Act

The Strengthening Career and Technical Education for the 21st Century Act updates the 2006 Perkins career and technical education (CTE) legislation. On June 26, 2018 the Senate Health, Education, Labor and Pensions (HELP) committee voted to pass their version of CTE out of committee. Similar to [H.R.2353](#), the Senate's bill promotes the inclusion of employability skills and establishes that career exploration programming can begin as early as the fifth grade. However, while the bill makes provisions for community-based partners to be included in the state plan, in comparison to H.R.2353 the language regarding community partners is not as strong. The next step is for the bill to be presented to the full Senate. For more information on CTE and afterschool, click [here](#).

For archived opportunities for providers, click [here](#).

Funding Opportunity

Youth Equity Challenge

Chicago Beyond is committed to improving life outcomes for young Chicagoans. To increase their impact, they are seeking nonprofit organizations that have developed programs and approaches that support the well-being and safety of Chicago's young people as investment partners. Interested organizations should submit a 90-second video of their program by **Wednesday, July 18, 2018**. For more information, click [here](#).

For a list of previously listed afterschool and youth development related grants, click [here](#).

Afterschool in the News

Most Influential in Research and Evaluation

In the summer 2018 edition of *AfterSchool Today*, the National AfterSchool Association recognized 20 organizations and individuals that are doing remarkable research in the field of youth and adolescent development. Included among the most influential researchers are Illinois' very own After School Matters, Chicago; Dr. Joseph Durlak, Emeritus Professor Loyola University; Dr. Reed Larson, University of Illinois; and Dr. Roger Weissberg, University of Illinois at Chicago and Chief Knowledge Officer, Collaborative for Academic, Social and Emotional Learning. To read more on the impact of their work, click [here](#).
