Policy Updates

## Public Charge: What Does It Mean for Afterschool?

Many afterschool advocates are joining advocates from the children's health, anti-hunger, immigrant rights, and education communities to express concern over the administration's "public charge" proposal as it could mean children and families will avoid support they need. Though federally funded afterschool programs are not part of the administration's "public charge" rule, participation could still drop due to a lack of accurate information or the spread of misinformation, which would result in young people missing valuable opportunities to help them reach their full potential.
