Policy Updates

Rethinking Safety Campaign

In many communities across Illinois, the response to school safety concerns has been to “harden” schools with additional school resource officers, security guards, metal detectors, surveillance cameras, and other law enforcement strategies, creating unhealthy learning environments and criminalizing youth all across the state. In response, the Rethinking Safety Campaign is working to ensure that Illinois is using its educational resources to provide holistic health resources for students, families, and communities across the state of Illinois.
