Center for Disease Control and Prevention: Out-of-School Time Providers Considered Essential Workers in Phase 1B of Vaccine Priority

On **January 27, 2021**, Center for Disease Control and Prevention (CDC) **officials clarified that they consider Out-of-School Time (OST) program providers as essential workers along with teachers and child care workers with regard to vaccine priority. This means that OST providers would be considered to be in group 1B of states' vaccine rollout plans. However, each state must include OST workers in their COVID-19 vaccine plans in order for program providers to be eligible to receive the vaccine.** The CDC has designed a COVID-19 Vaccination Communication Toolkit for Essential Workers to help employers build confidence in this important new vaccine. The toolkit will help employers across various industries educate their workforce about COVID-19 vaccines, raise awareness about the benefits of vaccination, and address common questions and concerns. To access the toolkit, click [here](#). Partners are encouraged to adapt the key messages to the language, tone, and format that will resonate with the organizations and programs they serve. Programs may place their logo on materials that have a place for your logo, but please retain the CDC URL (www.cdc.gov).

ACT Now: FY22 Budget Advocacy Alert to Legislators

Afterschool programs and community schools are an extremely effective resource in solving many of the problems exacerbated by the outbreak of COVID-19. As the nation continues to respond to the pandemic and the State of Illinois faces projected budget cuts to health and human services, it is imperative that we come together to support our youth and most marginalized communities by funding afterschool programs and community schools in Illinois.

ACT Now is asking that the Illinois General Assembly approve the following line items proposed in Governor Pritzker's Fiscal Year 2022 Budget:

- Restore the Teen REACH line item to the funding appropriated in FY18, at \$19.6 million
- Allocate a minimum of \$270 million from U.S. Congress' Child Care Stabilization Fund for CCAP via Child Care Restoration Grants. We ask that there be flexibility in the use of dollars and eligibility for license-exempt providers.
- Develop a new \$15 million line item to support Community Schools in the state
- Include \$3.44 million for After School Matters
- Include \$20 million in direct funding for ISBE's After School Programs line

- Allocate funding for afterschool and Community Schools from the federal COVID-19 relief package

P-20 Council: January Council Meeting Recap

On **January 29, 2021**, the Illinois P-20 Council met. The first part of the meeting addressed how Illinois is addressing connectivity issues in Education, including in relation to access to internet and devices. The second portion the meeting focused on learning renewal in response to the disruption in Education from COVID-19. The plan includes increased opportunities for out-of-school time support, such as afterschool and summer learning programs, as well as increased mental health supports for students. Superintendent Dr. Carmen Ayala also echoed the need for afterschool and summer learning partnerships in recovery. Council members provided feedback on the lack of transparency in developing the plan, which the Council agreed to examine. ACT Now Network Lead, Susan Stanton, provided public comment about the need for school districts to collaborate with afterschool programs in order to achieve effective learning renewal.
